

The Government of **Date:**

.....

Ref: “Ethnic cleansing” of Rohingya people in Myanmar.

**Subject: Appeal to raise the issue in Parliament asking.....
..... government to intervene for Humanity.**

Dear Madam/Sir,

I (am) / We (are) writing to draw your attention to this grave matter of humanity in crisis. Its indeed agonising with grave worries to see one section of people on the earth being subjected to so much hate and inhuman tactics.

To put in the words of United Nations, Rohingya people are the most persecuted community on the earth in the recent history, recently even being forcefully evicted from their homes and land. Most of the Rohingya people are Muslims and they are being targeted in the basis of their religious identity.

In fact, United Nations’ recent probe has found, “attacks that forced more than half a million people to flee Myanmar's Rakhine state were "well-organised" by security forces of Myanmar and designed to make their returning home next to impossible.”

As per the recent probe conducted by the UN Human Rights Office, the Myanmar military began "clearance operations" against Rohingya communities weeks before militants targeted state police posts in late August, which prompted reprisals and the current exodus.

The strategy of the Myanmar military's attacks against the minority Rohingya population – the UN report says – was to "instil deep and widespread fear and trauma – physical, emotional and psychological".

UN High Commissioner for Human Rights Zeid Ra'ad Al Hussein said that what was happening to Myanmar's one million strong Rohingya was "textbook ... ethnic cleansing".

The UN investigators say it is not possible to estimate how many villages have been razed to the ground so far in northern Rakhine state, where there is "grave concern" for the safety of hundreds of thousands of Rohingya still there.

Rohingya Appeal

It means, the sufferings of Rohingya people in Myanmar, Bangladesh or other countries like India, does not seem to end in near future.

Persecution must end:

The only way to end the persecution of Rohingya people, is to ensure that their safe return is guaranteed and their human rights are protected along with ensuring to put a definite end to the long running discrimination on the basis of their identity.

As Jyoti Sanghera, United Nations' Human Rights Director for the Asia and Pacific region put it:

“... the government of Myanmar needs to make clear what their proposals are, if there is a return of Rohingya people to their country which Myanmar, they should be able to return where all of their rights - civil, political, social and economic and cultural - are protected and upheld. And that there are dignified livelihoods and that this level of violence or any violence for that matter will not continue and systematic discrimination which Rohingya people have faced, should stop through proper legal documents of either citizenship or whatever the international community agrees to”.

Appeal:

I/We as peace-loving citizen(s) echo the demands and recommendations of the United Nations and all other peace-loving people to provide sustainable help to Rohingya people for their survival as citizens with dignity.

Any efforts for their resettlements in Myanmar or Bangladesh and other countries like India, should be monitored and observed by the independent authorities like United Nations and others.

Dear Madam/ Sir, I/we request you to raise this matter in the Parliament and with the Government to put their best efforts to intervene and make sure that there Rohingya people are allowed to live their life, free of any fear, discrimination and persecution.

The Government must use its influence to ensure the Human Rights of Rohingya people are protected and such ethnic cleansing tactics are not repeated in future.
